

# Refund Policy

Effective July 15, 2026

**Effective date:** July 15, 2026

We want you to be confident in MakerQ. You can evaluate it first with the **Free plan** and the built-in **trial** before paying, so you know it fits your shop.

## Pro (monthly / annual)

If you're not satisfied, email us within **14 days** of your **initial** Pro purchase for a full refund. **Renewals are non-refundable**, but you can cancel anytime (Settings → License → Manage subscription) to stop future charges — your access continues until the end of the paid period.

## Lifetime

Lifetime purchases are refundable within **14 days** of purchase. After **14 days**, Lifetime purchases are **non-refundable**.

## How to request a refund

Email **Hi@c3dprints.com** from the email address used for the purchase, with your name and (if you have it) your activation key or Stripe receipt. Refunds are issued to your **original payment method** via Stripe and typically appear within **5–10 business days**.

## After a refund

When a purchase is refunded, the associated **license/activation key is deactivated** and reverts to the Free plan.

## Chargebacks

Please contact us **before** filing a card dispute — we can almost always resolve a refund faster than a chargeback. Purchases that are charged back are treated as refunded and the license is deactivated.

## Contact
